

## Folding you cart

1. Lift the center folding bar and while holding the handle grip, rotate the handle down towards the rear wheel slowly until the handle is fully collapsed and rests on the rear wheels. The front wheel will automatically fold inward with the handle's motion

### Limited 1 year Warranty

**POLICY:** The Bag Boy Company provides the original retail purchaser of each new Bag Boy cart a limited 1 year warranty against defects in materials and workmanship for the cart frame and cart wheels when purchased from an authorized Bag Boy dealer. Some degradation of the product is considered wear and tear, so warranty coverage on some items may require evaluation from Bag Boy staff.

**REMEDY:** This warranty is expressly limited to the repair or replacement of a defective frame, wheel, or part and is the sole remedy of the warranty. This warranty applies only to the original owner and is not transferable. Claims under this warranty must be made through Bag Boy Customer Service. Proof of purchase is required. A warranty registration card must be completed and received by The Bag Boy Company before a warranty claim can be processed. Warranty remedies are subject to depreciation based on age and use of the cart.

**EXCLUSIONS:** Improper assembly or follow-up maintenance voids the warranty. This warranty also does not cover damage from normal wear and tear, installation of parts or accessories not originally intended or compatible with the cart as sold, damage or failure due to accident, misuse or neglect, or modification of the frame, wheels or components. Labor charges for parts changeovers are not covered by the warranty. Additionally, this warranty does not cover damage associated with commercial use, competition, or lack of technical skill of the user.

**LIABILITY LIMITATION:** The Bag Boy Company shall not be responsible for incidental or consequential damages including damages for personal injury, property damage or economic losses. Some states do not allow the exclusion of incidental or consequential damages, so the above exclusion may not apply to you. This warranty gives the consumer specific legal rights, and those rights may vary from place to place. This warranty does not affect the statutory rights of the consumer.

**"NO FAULT" WARRANTY:** If your Bag Boy cart is damaged in a way not covered by the foregoing warranty- an accident, for example – The Bag Boy Company will work with you to replace it at a reduced cost. Please check with Bag Boy Customer Service staff regarding the latest pricing, policy guidelines and produce availability. Any cart sold through this program requires that the damaged product be returned to The Bag Boy Company before the replacement item is shipped unless otherwise instructed. Please be aware that any shipping and/or labor costs are not covered as part of this program.

### Repair and Warranty Parts Availability

**Time Period:** The Bag Boy Company will stock its choice of replacement warranty and repair parts for a given model during the years it remains in current circulation and for 3 years post it's retirement from active status. In many cases stock of many replacement items will extend beyond this period, but no guarantees are made beyond the contract dates. The Bag Boy Company, at its discretion, may offer replacement product in cases where the needed repair parts are not readily available. This offer is not an absolute, but we will act in good faith to remedy customer difficulties in a timely manner.

**Scope:** The Bag Boy Company will stock normal replacement items based on product average usage data. The range of parts offered may vary from model to model as needs dictate. The range of parts may be altered within a product's life if unpredicted needs arise.

## First cart use-assembling your cart

1. Remove cart from carton and check that the following items are included:

- Cart frame
- Front wheel with fork attached
- (2) side/rear wheels
- Allen wrench
- Liquid holster

2. **a)** Attach the side/rear wheels by inserting the axle of the wheel into the cart wheel hub while the release lever is open

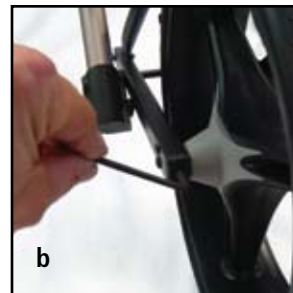

**b)** Close the release latch to secure the wheel and repeat on alternate side.

3. Unfold main cart frame by lifting the handle until the folding bar locks into position.

\*\*The handle is designed to be adjusted to each individual's preference via telescoping upper tubes.

## Front wheel adjustment/alignment

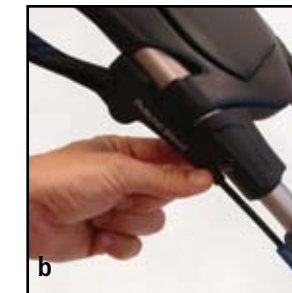

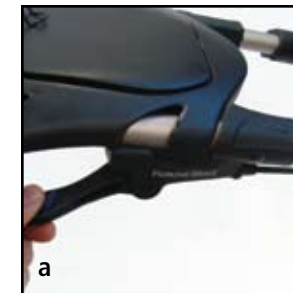

If your cart does not track straight, you can easily align the wheel by following the steps below:

1. Stand in front of the cart, locate the 2 allen head screws in the fork tips (a)
2. Using the provided allen wrench, turn the screws to align the wheel to center (b)

\*\*If your cart pulls to the left, tighten the right screw by turning clockwise. If it pulls to the right, tighten the left screw.

\*\*\*If you find the screws too tight to turn further, first loosen both screws to full stop and begin process again from this position, it will allow the full range of adjustment.

## Hand operated Parking brake

To operate the hand actuated parking brake, rotate the handle lever mounted on the cart handle (a) towards the ground. The pin brake will extend into the wheel braking spines. If your break becomes inoperable, you can adjust the brake by turning the barrel adjuster (b) on the handle counterclockwise until the wire is appropriately tight. If your brake is too tight when first operated, please call customer service for additional instructions.

To mount your liquid holster beverage holder, simply insert the rear tab into the mounting location under the score card (a). To fold your cart, its best that liquid holster be removed. Once folded, your cart is equipped with a secondary mounting location (b) for storage.
