

Bag Boy Introduces Travel Covers with Zip-to-Fit™ Technology --Innovative wheeled travel covers great for the golfer on the go--

RICHMOND – The Bag Boy Company, manufacturer of pull carts, golf bags, and accessories for over 55 years, recently introduced two premium wheeled travel covers with patent-pending Zip-to-Fit™ Technology allowing the accessory pockets to be removed. These designs are exclusive to the Bag Boy Company and revolutionize this product category.

“The innovative designs of these wheeled travel covers will ensure the ultimate in convenience and protection for golfers and their clubs” said Leighton Klevana, Vice President of Bag Boy. “Whether you prefer the ease of the removable backpack or the flexibility of the removable overnight bag/ briefcase, these wheeled travel covers will make traveling with your clubs easier than ever before.”

The T-550 Wheeled Travel Cover features a deluxe Zip-to-Fit™ Removable Backpack, allowing golfers to carry their essentials while traveling long distances or just to and from the golf course. This state-of-the-art travel cover features a durable wrap-around zipper for easy access to the club compartment as well as an extra thick quilted padded top for maximum club protection. A security lock also provides for safekeeping and piece of mind. The travel cover is extremely durable, constructed of all-weather 600D polyester material, reinforced base corners, and smooth rolling in-line skate wheels. The Zip-to-Fit™ Removable Backpack features four zippered compartments. The largest section is outfitted with shoe pockets and provides generous space for extra clothing and personal items.

The T-950 Deluxe Wheeled Travel Cover is ideal for any businessperson or golfer on the move. It features a Zip-to-Fit™ Removable Overnight Bag/Briefcase which is formed by two removable pockets that zip onto both sides of the innovative travel cover. Once removed from the travel cover the two pockets can be zipped together to form a deluxe overnight bag/briefcase. This allows traveling golfers the convenience of bringing just one bag on short trips. Like the T-550, the T-950 also has smooth rolling in-line skate wheels, skid resistant PVC base material for added durability. This deluxe model is made of premium all-weather 1200-D polyester with extra thick padding throughout for the maximum in club protection. Clubs will stay secure with an interior strap designed to hold them in place during travel and a heavy-duty anti-burst strapping system on the exterior. Both the T-550 and the T-950 (available in October 2001) are offered in a black body with hunter green two-tone trim or charcoal two-tone trim.

The Bag Boy Company was founded in 1946 and is recognized as an industry leader in the pull cart, golf bag and accessory markets by providing outstanding customer service and dependable products for over 55 years.
