RICHMOND –The Bag Boy Company recently introduced the latest addition to their state-of-the-art line of push and pull carts, the Express Three Wheel Push Cart. The Express cart makes walking the course almost effortless! Its oversize pneumatic tires with rustproof aluminum wheels make this the easiest to use Bag Boy cart ever.

“The trend among today’s golfers is towards walking rather than riding and the new Express push cart is the easiest way to walk your clubs around the course,” said David Boardman, President of Bag Boy. “I honestly believe that the people who try our new Express push cart will never carry their clubs again. The Express push cart is the next step in the evolution of walking the course with your clubs. The stand bag replaced the carry bag, and now the push cart has a chance to replace the stand bag because it is significantly easier to use.”

The Express Three Wheel Push Cart features a multi-position handle that makes pushing the cart comfortable for people of all heights. The adjustable aluminum bag brackets and velcro enclosures secure any size bag. An extra wide handle and 12” pneumatic tires increase the ability to maneuver this push cart effortlessly on or off the golf course. With the quick release folding mechanism and the pivoting third wheel, the Express is extremely compact when folded for easy storage and handling.

This premium push cart is also equipped with a convenient push-on and push-off brake design to prevent the cart from rolling. Extra features such as the swivel beverage holder and on-board tire pump make this cart even more convenient for avid golfers. Like all Bag Boy products, the Express is constructed with durability in mind. It is made of premium materials including a heavy-duty alloy center section and third wheel assembly, adjustable aluminum bag brackets, and high modulus ultra lightweight aluminum tubing.
